Summer Reading

⬤ Goals:

Keep your school community connected by reading the same books this summer! Ensure students read during break by creating a summer reading list in the Glose for Education bookstore. Add books to each classroom and use Glose for Education statistics to determine how much reading is taking place. Encourage students to use Glose for Education features to react to what they read and connect with their friends over the summer.

⬤ Description:

Create a list of book recommendations by grade. Add these books to the appropriate classroom in Glose and encourage students to choose these books for reading over the summer.

Appropriate for: All students

Glose Features Used

✔	Highlight

✔	Notes
	Dictionary
	Translation
	Reader Settings
✔	Reviews
	Quote page
✔	Statistics

How to Glose:

- ✅ Create a schoolwide reading list in the Glose for Education bookstore

- ✅ Add the books to the classroom page

- ✅ Encourage students to download the app and read over the summer
    a. Use the Glose for Education app to share quotes, highlight, react and notate their favorite books with their friends.
    b. Encourage the school community to rate and review the books they read.

- ✅ At the end of the summer, use statistics to analyze and recognize the reading completed by the school community.

Extend	Support	Connect
Host a party in the library for those students that completed a set summer reading goal.	Assign specific books to individual students based on their reading and comprehension levels.	Encourage both staff and students to react to what they've read using emojis, highlights and adding video or image links in the comment section.

Notes :
